Caribbean Equality will cover all aspects of Caribbean life, from developing news to business, including detailed looks at the region's emerging economies. We will also cater to readers who want to know places of interest to visit that are off the beaten path, and will fill the needs of those looking to enjoy a taste of the Caribbean by highlighting local foods, markets and the best places to eat. Caribbean Equality is a slice of Caribbean life in one monthly package. If you're in the hospitality business, this is the vehicle for you to reach readers through our print copies, as well as a worldwide audience through our website.
